Understanding the Ethiopian Calendar: An Overview

The Ethiopian calendar, also known as the Ge'ez calendar, is a solar calendar that has been used for centuries in Ethiopia and Eritrea. It is closely linked to the Coptic calendar and shares many similarities with the Egyptian calendar. Its unique features, such as its calculation of the new year, month names, and year numbering, set it apart from the Gregorian calendar widely used worldwide.

Historical Origins and Development

The Ethiopian calendar traces its origins to ancient Egyptian timekeeping systems, which were adopted and adapted by early Christian communities in Ethiopia.
