- Label views clearly.

Tips:

- Remember the conventions for line types: visible edges (solid lines), hidden edges (dashed lines), and centerlines (long dash-dot).
- Practice projecting different objects to build confidence.

Isometric Drawing

Isometric drawings depict objects in three dimensions, maintaining scale along three axes inclined at

120°.

How to Approach:

- Begin with the basic shape, sketching the three axes.
- Use a ruler and set square to draw lines parallel to axes.
- Draw the outline, then add details.
- Keep proportions consistent.

Tips:
