According to local legend, a prospector struck rich deposits in the late 19th century, only to vanish without a trace, leaving behind a series of cryptic clues. Despite numerous searches, the mine has never been conclusively found, fueling speculation about its true location and whether it exists at all.

The Original Town Plan

An Overview of "Secrets Make You Sick"

"Secrets Make You Sick" is a book that challenges the conventional notion that hiding the truth can be beneficial. Instead, it presents a compelling case that keeping secrets—whether personal, societal, or cultural—can lead to a host of health issues, including stress, anxiety, depression, and even physical ailments.
